Education

- 2023–present **Ph.D. in Computer Science**, Faculty of Natural, Mathematical & Engineering Sciences, King's College London, London, UK
- Thesis: *Model-driven Approaches for Reverse Engineering*
 - Supervisor: **Prof. Kevin Lano**
 - Supervisor: **Prof. Gunel Jahangirova**
- 2004–2007 **M.Sc. in Computer Science**, The Libyan Academy, Tripoli, Libya
- Thesis: *Transformation of Object-Oriented Source Code to UML Models*
 - Supervisor: **Dr. Fauzi Abokhzam**
- 1989–1993 **B.Sc. in Computer Science**, Tripoli University, Tripoli, Libya
- 1987–1989 **General Secondary School Certificate**, Ramadan Ben Turkia Secondary School, Tripoli, Libya

Research Interests

- **Large Language Models (LLMs) for Software Engineering**
My research explores the application of large language models to support software engineering activities, with a focus on automating software artifact understanding, transformation, and abstraction. In particular, I investigate LLM-based approaches for extracting high-level software knowledge from source code, generating design representations, and bridging the gap between implementation artifacts and software models.
- **Software Reverse Engineering and Program Understanding**
My research focuses on recovering high-level design knowledge and structural information from existing software systems to improve software comprehension, documentation, and maintenance. I investigate AI-assisted reverse engineering techniques for analyzing Java and Python programs, extracting meaningful abstractions, and recovering software models from source code.
- **Model-Driven Engineering and Software Modeling**
My research investigates the use of model-driven approaches for automatically deriving software models from implementation artifacts. In particular, I explore the generation of UML and OCL representations from source code to support model recovery, design documentation, consistency analysis, and improved alignment between software implementations and their conceptual models.

Honors & Awards

- 2023-2027: Scholarship from the Libyan Ministry of Higher Education, to support my Ph.D. studies in London – UK.
- 2013-2014: Scholarship from the Libyan Ministry of Higher Education, to study English for academic purposes in Manchester – UK.

- **Siala, Hanan Abdulwahab**, “Using Large Language Models to Extract UML Class Diagrams from Java Programs,” in *SSY Group Meeting*, King’s College London, London, UK, Tue 25/03/2025.

Research Funding & Recognition

- 2025: Researcher in an interdisciplinary project focused on climate action and sustainable solutions, aligned with the United Nations Sustainable Development Goal 13 (Climate Action). The project received support through the King's Climate & Sustainability Seed Fund – Round Five at King's College London, as one of six funded projects addressing global climate challenges.

Teaching Experience

- 2010-2023 **Lecturer**, Tripoli University, Department of E-commerce and Data Analysis, Tripoli, Libya
- 2008-2010 **Part-time Lecturer**, Tripoli University, Department of E-commerce and Data Analysis, Tripoli, Libya
- 2008-2010 **Part-time Lecturer**, Higher Institute for the Medical Profession, Department of Medical Information Technology, Tripoli, Libya
- 2008-2010 **Part-time Lecturer**, Tripoli University, Department of Computer, Teachers Training College, Tripoli, Libya

Courses Taught

As Lecturer, including lectures and preparation (2008-2023)

- Database Management and Design
- Introduction to Internet and Networks
- Programming Languages
- Fundamentals of Computers
- C++ Programming
- Computer Applications
- Object-oriented Programming (JAVA)
- Web Sites Design

Supervision

- 2010-2023 **Supervisor of four graduate students (projects)**, in the Department of Medical Information Technology and in the Department of E-commerce and Data Analysis, Tripoli University, Libya.

Industrial Experience

Management Experience

- 2009-2010 **Head of Databases and Information Department**, *Information and Documentation Centre, Ministry of Education*, Tripoli, Libya.
- 2008-2009 **Head of the Programming Department**, *Information and Documentation Centre, Ministry of Education*, Tripoli, Libya.

Committee Membership

- 2010 **Member of the Committee on Educational Institutions Data Revision**, *at the national level*, Information and Documentation Centre, Ministry of Education, Tripoli, Libya.
- 2009 **Member of the Follow-up Committee regarding Staff Relocation of the Education Ministry**, *at the national level*, Information and Documentation Centre, Ministry of Education, Tripoli, Libya.

- 2008 **Member of the Human Resources Committee of the Education Ministry**, *at the national level*, Information and Documentation Centre, Ministry of Education, Tripoli, Libya.
- 2002-2003 **Member of the Finance Committee for the Development of the Budget Information System at the Head Office**, Social Security Fund, Tripoli, Libya.
- 1995-1997 **Member of the Pensions committee**, *at the national level*, Social Security Fund, Tripoli, Libya.
- Software Engineering Experience**
- 2010-2023 **Tripoli University**, Tripoli, Libya
- Designed an application for electronic exams for students.
- 2005-2010 **Information and Documentation Centre, Ministry of Education**, Tripoli, Libya
- Migrated data from an old education system to a new SQL database.
 - Designed and issued statistics and reports for all education levels (elementary, secondary, and higher education).
 - Developed a software system for the management of educational supplies.
 - Developed a Student Information System to supply the statistics and reports needed by the Ministry.
 - Trained the employees of the information and documentation centers at the Ministry of Education on the Student Information System.
 - Developed technical specifications for the systems of the education sector.
 - Contributed to the preparation of annual and quarterly reports for the Information Center at the Ministry of Education.
 - Developed a Human Resources (HR) software system.
- 2003-2006 **National Center for Quality and Informatics**, *(part-time)*, Tripoli, Libya
- Developed a Reservation System for the Arab Maghreb Village.
 - Developed a Reservation System for the Tunisian Airline.
- 1994-2005 **Social Security Fund**, Tripoli, Libya
- Developed many software systems for the headquarters of the Libya Social Security Fund and its branches, in support of actuarial studies, pensions, services provided, etc.
 - Developed a registration software system of employers, secured, and collection of security contributions. This system is still in use by the Libya Social Security Fund.
 - Developed a software system to accommodate all retirement files. This system is still in use by the Libya Social Security Fund.

Languages

- **English:** Fluent
- **Arabic:** Native

Hobbies and Interests

- Reading I enjoy exploring new ideas and continuously expanding my knowledge.
- Drawing I like expressing my creativity and improving my artistic skills through drawing.
- Walking I enjoy walking as a way to relax, reflect, and maintain a healthy lifestyle.
